CORPORATE GOVERNANCE

1. Rights of Shareholders

Recognizing the importance of shareholders, the Board of Directors makes every effort to treat its shareholders equally and fairly, as specified under the Articles of Association of the Bank and related laws. The basic legitimate rights of shareholders include the right to participate in shareholders' meetings, the right to appoint a proxy to participate and vote at shareholders' meetings, the right to vote for the appointment or removal of individual directors, the right to vote on the annual appointment of independent auditors and setting of annual audit fees, and the right to vote on various other businesses of the Bank. Shareholders' rights also include eligibility to receive dividend payment, the right to give opinions and enquire into business matters of the Bank during shareholders' meetings, and the right to receive sufficient information in a timely manner.

The Annual General Meeting of Shareholders at KBank's Head Office

Apart from the above basic rights, the Board of Directors emphasizes the disclosure of accurate, complete, timely, and transparent information to shareholders. Information updates are regularly provided on the Bank's website in three languages - Thai, English and Chinese - as well as to the public media. In 2008, the Bank undertook the following tasks to facilitate and promote the rights of shareholders:

1. The Board of Directors Meeting No. 2/2008, on February 28, 2008, resolved to schedule the 2008 Annual General Meeting of Shareholders for on April 3, 2008. The resolution was published on the information

dissemination system of the Stock Exchange of Thailand beginning the day the resolution was passed.

2. Before the Annual General Meeting of Shareholders, the Bank arranged for delivery of the meeting notice, which included information on the date, time and venue of the meeting, a map of the meeting place, and the meeting agenda, in accordance with the law, the Stock Exchange of Thailand's requirements and the Bank's Articles of Association. In addition, proxy forms and a complete set of supporting documents for the meeting agenda, together with the Bank's Articles of Association related to the meeting, were sent to shareholders for their consideration more than 14 days prior to the meeting date. Along with the meeting notice, shareholders were sent sufficient information for voting on every agenda item, each of which

Atmosphere at the Annual General Meeting of Shareholders

was identified clearly as either 'for acknowledgment', 'for approval' or 'for consideration', together with sufficient and clear comments by the Board of Directors to help shareholders in their voting decision. All of the information sent in document form was also posted on the Bank's website (www.kasikornbankgroup.com) at least 30 days prior to the meeting date so that shareholders received the information in a convenient and timely manner. Moreover, the meeting notice was published in a Thai daily newspaper for at least three consecutive days and at least three days before the meeting date.

The notice of the general meeting of shareholders and the meeting documentation were also prepared in English and posted on the Bank's website to facilitate participation by foreign shareholders.

For those attending the Annual General Meeting of Shareholders, the Bank gave detailed information on which documents were necessary for shareholders to present on the meeting day in order to have the right to attend the meeting, including a proxy form per the Ministry of Commerce's designation. Also included was a list of independent directors, the Chairman of the Board, the Chief Executive Officer, the President, and any other persons whom the shareholders might wish to appoint as proxy, to vote at the meeting on his/her behalf.

3. On the meeting day, the Bank arranged for shareholder registration to begin more than one hour prior to the meeting. Preparation of the venue, greeters and an appropriate number of registration staff were also arranged to facilitate shareholders. A barcode system was used for shareholder registration and proxy registration, allowing for a quick and efficient registration procedure. Printed ballots were handed out to each shareholder for voting on each agenda item.
4. Before the meeting commenced, the Chairman of the meeting assigned the Corporate Secretary to clearly inform all shareholders of voting and vote-counting procedures. The counting of votes was carried out in a transparent manner. In 2008, the Bank adopted a barcode system to facilitate the vote count processing. One share equals one vote, and approval of a resolution was based on the majority of votes, except for special resolutions which required approval of no less than two-thirds or three-quarters of all votes of eligible voters present at the meeting. This practice was in line with the Bank's Articles of Association and the law.

In the 96th General Meeting of Shareholders, the Vice Chairman of the Board acted as the Chairman of the meeting, which was also attended by the Chief Executive Officer, the President, and the chairmen of all Board Committees. Altogether, there were 13 directors in attendance:

1. Pol. Gen. Pow Sarasin
Vice Chairman and Chairman of the Corporate Governance Committee
 2. Mr. Banthoon Lamsam

 3. Dr. Prasarn Trairatvorakul

5. During the meeting, the Chairman of the meeting offered all shareholders an equal opportunity to give suggestions and ask questions within an appropriate time frame, and allowed directors in charge of the topics that were

raised to clarify and provide complete information to shareholders. Moreover, shareholders were given the opportunity to submit questions concerning the meeting agenda in advance, from the day they were notified of the meeting and the meeting agenda until one week before the Shareholders' Meeting date. These criteria were disclosed via the information dissemination system of the Stock Exchange of Thailand, and the Bank's website. For shareholders who entered the meeting after it had commenced, voting or casting of ballots was allowed for agenda items that were still under consideration.

6. In 2008, the Bank prepared a "Shareholder Smart Guide" as a guideline for the shareholders and for quicker and more convenient services.

2. Equitable Treatment of Shareholders

Recognizing the importance of equitable treatment of shareholders, the Board of Directors has established a Corporate Governance Policy based on shareholders' rights and the equal and fair treatment of all shareholders, and has undertaken the following tasks:

1. To promote good governance, the Bank provided shareholders with the opportunity, before the Shareholders' Meeting, to propose matters to consider including as agenda items, per specified criteria. Shareholders were also allowed the opportunity to propose qualified candidates having no prohibited characteristics, for election as director under the

prescribed process at the General Meeting of Shareholders. Guidelines on the proposing procedure and shareholders' rights were provided to shareholders through the information dissemination system of the Stock Exchange of Thailand and disclosed on the Bank's website, including the Bank's decisions and reasons related to the proposed matters or candidates. In 2008, the Bank posted this notification 4 months in advance of the meeting, but no shareholders proposed any issue to be included in the agenda items, nor did they propose a candidate for election as director.

2. The Bank arranged for the Shareholders' Meeting to be conducted in a transparent and efficient manner, in line with the Bank's Articles of Association and related laws. The consideration of items and voting

The "Shareholder Smart Guide" prepared by KBank

were conducted in accordance with the announced agenda. This included consideration of the election of directors individually and his/her remuneration, together with consideration of the annual appointment of independent auditors, the audit fee setting and other agenda items as specified in the meeting notice. During the meeting, in addition to related meeting documents, the Bank prepared video presentations and provided English translations for foreign shareholders.

3. Shareholders unable to participate in the meeting had the option to appoint proxies to the meeting. Proxies could be independent directors, or the Chairman of the Board, or the Chief Executive Officer, or

the President or any other person appointed to participate in voting on behalf of the shareholders. Proxy forms were designed such that shareholders were able to designate the direction of the voting.

4. Ballots were used in voting on every agenda item. To enable vote counting to be carried out efficiently and rapidly, the Bank collected only the ballots of shareholders in opposition of or abstaining from the vote. Concerning the appointment of directors, to comply with the operating guidelines of the Office of the Securities and Exchange Commission, the Bank collected the ballots from all shareholders and proxies present at the meeting and arranged to have officers from a legal advisory firm verify the correctness of the votes, and to keep the ballots for future reference.
5. Comprehensive minutes of the meeting were recorded. They comprised details of significance, e.g., meeting resolutions, the voting result (divided into approval, opposition and abstention for each agenda item), questions, explanations and opinions of the meeting. The minutes of the shareholders' meeting were sent to regulatory agencies within 14 days after the meeting, and to shareholders for their acknowledgment, as well as posted on the Bank's website. Moreover, the Bank arranged for the meeting to be video recorded for future benefits.
6. The Bank has established regulations to supervise the use of inside information, concerning securities trading of directors and employees, in compliance with the Securities and Exchange Act and good corporate governance. The regulations are reviewed regularly, the essence of which is summarized as follows:
 - All operational units must set up a system, manage their workplace and maintain inside information to prevent disclosure to others. Inside information can be used and sent only by persons who need to know or use it for their operations.
 - Directors and employees are prohibited from buying, selling, transferring or accepting the transfer of securities in any manner that may take advantage

of outsiders by using inside information that may have a significant impact on the price of securities, and has not been disclosed to the public or the Stock Exchange of Thailand. Though they may have become aware of such information in their capacity, either as directors or employees of the Bank, such actions are prohibited, whether to favor themselves or others, or to reveal such information to others to do or receive benefits thereof.

- The Bank has regulated that directors, officers in the position of Executive Vice President or equivalent and higher, and those in the position of Department Head or equivalent in the Financial Accounting Management Department or Financial Planning Department, must report their ownership of securities issued by the Bank, including those under ownership by their spouses and minor children. Furthermore, the Bank requires that all personnel who have access to significant inside information, under the above criteria, report their ownership of securities issued by the Bank, including those under the possession of their spouses and minor children, to the Bank's compliance unit.
- Concerning the supervision of securities trading and prevention of the use of inside information, the Bank has stipulated a silent period for securities trading by directors and related staff, prohibiting trading of securities issued by the Bank starting one month prior to the Bank's disclosure of financial statements or quarterly performance, and lasting until the second day after the information has been disclosed. In 2007, under a change in the organizational structure, the unit was renamed as the Investor Relations Unit, under the Office of the Corporate Secretary, with the objective and responsibility of handling investor relations-related activities. Responsibilities of the Investor Relations Unit include setting up annual investor relations plans, and providing timely and accurate information to shareholders, investors, analysts and credit rating agencies, both local and international, so as to enhance the good image and reliability of the Bank to investors, and deliver efficient service to the Bank's shareholders.

Term of Office

The Board of Directors has an established term of office for directors in the Articles of Association and the Corporate Governance Policy of the Bank. At each General Meeting of Shareholders, one-third of the directors - or if their number is not a multiple of three, then the number nearest to one-third - must retire from office. The directors who have been in office the longest shall retire first. If there is any disagreement as to who shall retire, it shall be decided by drawing lots. The retiring directors may also be re-elected. The details of directorships held by the Bank's directors and executives in other companies are reported in the Annual Report under the topic of **Board of Directors and Executives**, as well as the topic of **Directorship of Directors and Executives in Subsidiaries, Associated and Related Companies**. Separation of the Chairman and the Chief Executive Officer Positions

The Chairman of the Board of Directors is not the same person as the Chief Executive Officer. He is neither a

regular employee, nor an executive of the Bank. The Bank has clearly set the scope of duties, responsibilities and governance authority in the Board of Directors Charter for each of the above positions. The Board has roles and responsibilities

designated in the Board of Directors' Charter as follows:

1. Supervise and manage the Bank so that it is in accordance with the law and the Bank's objectives, the Articles of Association and the resolutions of Shareholders' Meetings.
2. Approve the Vision, Mission, Values and Statement of Business Conduct.
3. Review and discuss Management's proposed strategy options and approve major decisions in respect of the Bank's direction and policies. The Board also reviews and approves the Annual Business Plan, Capital Expenditure Budget, and performance goals proposed by the Management.

5. Supervise and review the balance between the Bank's short-term and long-term objectives.
6. Ensure that the Bank shall vest the authority in the Chief Executive Officer and the President to initiate, commit and approve payments for expenditures approved in the Capital Expenditure Budget, and other budgets approved by the Board for the purpose of special projects. The Board shall also review and approve any credit proposal beyond the established limits of delegated lending authority.
7. Review and approve the human resources policies, management development plans and remuneration policy. The Board shall seek and nominate successors to the Chief Executive Officer and the President, as well as appraise their performance and ensure that effective performance assessments are undertaken for Bank executives.

11. Ensure that the Bank has a proper system in place to communicate effectively with all stakeholders and the public.

Nomination of Directors

The Bank has established the Human Resources and Remuneration Committee to select and review candidates nominated for the positions of directors, the Chief Executive Officer and the President. The appropriate proportion, number and composition of the committee are taken into consideration, which must also conform to regulatory statutes, the Bank's Articles of Association and the Statement of Corporate Governance Principles. Selection guidelines include:

1. Consider persons with the necessary prerequisite qualifications specified by the Bank, and not having characteristics prohibiting them from holding a directorship in a financial institution or securities company per the criteria of the Bank of Thailand, the Office of the Securities and Exchange Commission, and other related agencies.
2. Review their qualifications based on the questionnaire on the qualifications of director of financial institution in accordance with related laws.
3. Have the qualifications, skills, knowledge and basic experience defined by the Bank.

The Bank gives shareholders the opportunity to propose candidates for consideration and election to such positions in the Annual General Meeting (AGM), according to specified criteria and procedures. The Human Resources and Remuneration Committee may propose to the Board of Directors that it set up an ad hoc committee comprising the Bank's Directors or external personnel to handle the director nomination procedure. If there is no suitable candidate, the nomination procedure will be resumed to find new qualified ones. For the nomination of Independent Directors, the Human Resources and Remuneration Committee will consider qualified candidates who do not have characteristics prohibiting them from holding such positions as prescribed by the regulations of the Bank of Thailand and other regulatory agencies. Qualified candidates

will be recommended to the Board of Directors for consideration and asked for concurrence from the Bank of Thailand before proposing to the Annual General Meeting of Shareholders to elect them individually.

After the Board of Directors resolves to endorse the proposal, the responsible unit would proceed to ask for the Bank of Thailand's concurrence, in either electing a new director or reelecting a director due to retire by rotation. If the Bank of Thailand does not concur with the proposal, the Human Resources and Remuneration Committee shall resume the nomination process.

After the Shareholders Meeting has passed a resolution to appoint a director, the responsible unit must register the change of director, and/or report to related official agencies within a defined period of time.

Appointment and Removal of Directors

1. The Bank's shareholders shall appoint not less than 7 and not more than 18 directors, whereby no fewer than half of all directors shall reside in the Kingdom of Thailand, and no fewer than three-quarters of all directors shall be of Thai nationality. A director may or may not be a shareholder. Directors shall be elected by the meeting of shareholders in accordance with the following rules and procedures:
 - (1) Directors shall be elected individually.
 - (2) Each shareholder shall have one vote per share held.
 - (3) Each shareholder shall use all of his/her votes in the election of directors.
 - (4) Persons receiving the highest number of approving votes among all candidates are to be elected in a respective order, in proportion to the number of positions to be filled at that meeting.
 - (5) In the event of a tied vote on candidates for the last order for director election, the chairman of the meeting shall have the deciding vote.
2. At each Annual General Meeting of Shareholders, one-third of the directors, or if the number is not a multiple of three, then the number nearest to one-third must retire from office. The directors who have

been in office the longest shall retire first. If there is disagreement as to who should retire, it shall be decided by drawing lots. The retiring directors may be re-elected.

3. Any director who passes away, or tenders his/her resignation prior to his/her term, or is resolved to be removed by a meeting, or ordered by the Court to resign, or whose qualifications fall short of criteria and prerequisites specified, shall be removed from office.
4. If a vacancy in the Board of Directors occurs for reasons other than the expiration of the director's term of office, the remaining Board members shall elect a person who has the proper qualifications, and has no prohibited characteristics, as a substitute director at the next meeting of the Board of Directors, unless the remaining term of office of the said director is less than two months. Such a resolution by the Board of Directors shall require not less than three-quarters of the remaining directors' votes for approval. The substitute director shall hold office only for the remaining term of the director whom he or she is replacing.

Empowerment by the Board of Directors

The Chairman and the Vice Chairman may approve the empowerment of executive authority to the Bank's Chief Executive Officer or President to legally act on behalf of the Bank in conducting transactions up to a limit of Baht 3,000 million per transaction. Either the Chief Executive Officer or the President may delegate this authority to a Bank employee to act on behalf of the Bank within the limits of each employee's responsibility. For transactions over the specified limit, the Board shall review and approve the limit of such transactions on a case-by-case basis.

Executive Authority of the Bank

In addition to the aforementioned empowerment of executive authority, the Bank has also established a set of criteria and plans for exercising internal executive authority. These principles help the Bank to delegate authority among employees in various positions, enabling them to perform

specific functions and make effective decisions with flexibility, but within the confines of an appropriate control system.

Internal executive authority is categorized into 3 areas:

1. Executive authority shared by various departments
2. Departmental/Office executive authority
3. Branch executive authority

Principles

The following are the main points of the structure and content of the internal executive authority:

1. The empowerment of executive authority is the delegation of the Chief Executive Officer's and/or President's authority to administer and execute various tasks within the Bank to the next lower level of management.
2. The Chief Executive Officer and/or the President are assigned by the Board of Directors to approve the internal executive authority and principles.
3. Internal executive authority shall include:
 - 1) Executive authority involving approvals and instructions that are intended toward financial and non-financial transactions for internal management within the department or unit according to the assigned duties.
 - 2) Executive authority involving disbursements must be within the approved budget of the Bank.
4. For complete control, executive authority is divided into categories according to their operational functions, as follows:
 - 1) Executive authority shared among various departments refers to authority that is not assigned specifically to any one particular department, but may be specified according to the job performed by those employing such authority in various departments/units. This includes executive authority in 9 areas:
 - (1) Executive authority relating to human resources
 - (2) Executive authority relating to expenditures
 - (3) Executive authority to quote exchange rates and offer lower fees or interest rates to domestic and international businesses

- (4) Executive authority of the Assets and Liabilities Management Sub-committee
- (5) Executive authority relating to credit approval and authority in debt restructuring
- (6) Executive authority relating to other aspects
- 2) Departmental executive authority is the executive authority delegated to a specific department relative to its business activities and delegated to the management of that division or department, as well as to individuals in various positions in the related department(s).
- 3) Branch executive authority is the authority delegated to branches relative to their business activities, being delegated to network managers, zone managers and branch managers, as well as individuals in various positions in the branch.
- 5. The principles of executive authority are established and presented in tabular form to ensure that the management and staff at all operational levels understand and perform their duties according to the delegated authority and risk management framework.

Board of Directors' Meetings

The Board of Directors schedules board meetings for the last Thursday of every month. All board members are informed of the schedule of the meetings for the entire year in advance at the beginning of each year. Additional meetings may also be held as deemed appropriate. The Corporate Secretary shall arrange for notices of board meetings, agendas and related documents containing complete information to be delivered to each director at least 7 days in advance, except in urgent cases, to allow sufficient time for the Board to study the matters at hand. Each director may ask for additional information from the Corporate Secretary and is free to propose an issue as a meeting agenda item. The agenda for board meetings shall be categorized clearly and include agenda items to monitor the operating results of the Bank on a regular basis. The designation of the agenda must undergo the consideration of the Chairman, the Chief Executive

Officer and the President.

During the meeting, the Chairman will allocate sufficient time for discussion and support directors in freely expressing their opinions. Pertinent executives of the Bank shall be invited to attend the meeting to provide related information and to directly acknowledge related policies to ensure effective implementation. The Bank provides a teleconference system for directors who cannot attend the meeting in person, and provides simultaneous translation for foreign directors. Each agenda item and its resolution are completely recorded in writing, and the minutes of the meeting - which have been affirmed by the Board together with related documents - are systematically filed for examination and reference by the Board, or others concerned.

Moreover, the Board has a policy of having non-executive directors conduct meeting sessions without the participation of executive directors, to offer them the opportunity to discuss problems and evaluate the performance of the Chief Executive Officer and the President. The outcome of such meetings shall be reported to the Chief Executive Officer and the President.

In 2008, the Board held a total of 12 board meetings and 1 meeting of non-executive directors. Details of each director's attendance appear under the item of **Meeting Attendance of Each Committee in 2008**.

5.4 Roles and Responsibilities of the Board of Directors

The Board of Directors comprises persons who have knowledge, ability and working experience. The Board approves the vision, mission, and core values as well as strategic directions and policies, reviews the annual business plan and budget, and oversees the Bank's management in effectively carrying out actions that are in line with the designated policies and business plans, and are in accordance with the rules and regulatory requirements of related government agencies and the resolutions of shareholders' meetings. The Board of Directors' decisions are independent, in order to ensure that the Bank and its stakeholders receive the maximum benefit that increases the economic value of the Bank.

The Code of Conduct Guidebook

Moreover, the Board of Directors ensures the existence of an effective internal control system and appropriate risk management framework, and cooperates with the Bank's management in business undertakings in order to attain the best results. Current and future risks are taken into consideration, in conformity with the Bank's vision, mission, Statement of Business Conduct and Statement of Corporate Governance Principles.

Corporate Governance Policy

KASIKORNBANK places great importance on good corporate governance, which is held as essential in sustaining the Bank's business. The Statement of Corporate Governance Principles has been revised and approved by the Board of Directors. The same principles have been applied to the KASIKORNBANKGROUP, as well. The principles, in writing, have been aimed primarily at communicating to all employees, shareholders and other stakeholders the ultimate goal of the Board of Directors to act in accordance with the seven major components of corporate governance, consisting of the following:

- Integrity
- Transparency
- Independence

Lecture on the Statement of Corporate Governance Principles and the Code of Conduct

- Responsibility
- Accountability
- Fairness
- Social Responsibility

The content of the Bank's Statement of Corporate Governance Principles covers the structure, composition, roles, duties and responsibilities of the Board of Directors and all Board Committees, as well as matters of risk management, internal control systems, inside information policies, and issues that are likely to involve conflicts

of interest and shareholder relationships. (Details on the Statement of Corporate Governance Principles are available at www.kasikornbankgroup.com).

The Corporate Governance Policy covers the Bank's mission, core values, vision, Statement of Business Conduct and the employees' Code of Conduct. This includes the protection of the legitimate rights of shareholders, who are encouraged to exercise their rights, and reflected in operational guidelines and directions adopted internally that ensure that the Bank has adequately followed the best practices in corporate governance. In 2008, the Bank assessed and reviewed the results from operations according to the Corporate Governance Policy, and the Board of Directors, on December 18, 2008, resolved to amend the Statement of Corporate Governance Principles so as to comply with the regulatory requirements and best practices. Moreover, the Bank disseminated a booklet of KGroup Corporate Governance that compiles important content and operational guidelines for enhancing corporate governance to all stakeholders.

All members of the Board of Directors are aware of their mutual responsibilities for sustaining the highest benefit to the Bank, and their roles in supervising information disclosure, transparency in business undertakings and the decision-making process, and fair treatment to all stakeholders. In addition, the Bank places great importance on fairness in every business undertaking, as well as participation in the Corporate Social Responsibility (CSR) activities. The Bank and its employees have to strictly adhere to the Code of Conduct in performing their duties under the CSR principles. The Bank has also been enthusiastically participating in and promoting environmental protection and social development projects, in recognition of the importance of the need for improvement in the quality of life of individuals and the community at large, and for the benefits of all stakeholders.

In 2008, the Bank's activities that promoted Corporate Governance were as follows:

- The Bank circulated the Code of Conduct to all employees for their acknowledgement.

- The Statement of Corporate Governance Principles and Code of Conduct were two main issues in every orientation program for newly recruited employees.
- Actions in compliance with the Code and the Statement of Corporate Governance Principles were disseminated to employees through a Corporate Governance database set in the electronic networks.
- Actions that comply with the Code were promoted through the KBank closed-circuit TV programs - also known as KASIKORNTV - in order to promote general understanding of actions stipulated in the Statement of Corporate Governance Principles.

This included a checklist for actions in compliance with the principles in order to collect useful data for supervising appropriate and effective actions in compliance with the Statement of Corporate Governance Principles.

Business Ethics

The Board of Directors has promoted the establishment of a Statement of Business Conduct and a Code of Conduct for directors and employees. All directors, executives and employees share common goals in carrying out their designated duties and responsibilities to the Bank and its stakeholders. They perform their duties with integrity, in compliance with the law and the Bank's Articles of Association, based on professional standards and a business approach that is transparent, honest and fair, for the development of the organization towards attaining international standards. The Statement of Business Conduct and the Code of Conduct have been disseminated via the Bank's website and the central database.

The Bank's Statement of Business Conduct includes:

1. Aim to satisfy customers by offering quality products and excellent services.
2. Continually strive for superior performance.
3. KBank's employees are valuable assets. The Bank seeks and recruits people with skill and experience, continually develops human resources and offers remuneration comparable to other leading companies.
4. Perform as a good corporate citizen, conduct business with impartiality and contribute to social development and environmental preservation.
5. Believe in being fair to all.
6. Believe in strong ethical standards and be determined to carry out business with integrity.
7. Protect customer confidentiality and maintain customer trust using professional standards.
8. Be dedicated to carrying out responsibilities in a professional manner and strive to achieve excellent results by integrating modern approaches and technological advances.
9. Respect the equal rights of all stakeholders.
10. Be committed to discipline in business execution and make certain that all business decisions and operations conform to related laws and regulations by pursuing the Statement of Business Conduct of the Bank and Code of Conduct of the workforce.

Significant content of the Code of Conduct includes 1) key principles and core values of the Bank; 2) observance of laws and the Bank's regulations; 3) maintenance of good relationship with customers; 4) maintenance of good relationship with society; 5) maintenance of good relationship with employees; 6) an advertising and public relations policy; 7) confidentiality of information; 8) completeness and accuracy of the Bank's information; 9) avoidance of the use of inside information in securities trading; 10) prevention of conflicts of interest; 11) abstention from bribery and inappropriate incentives; 12) non-involvement in political activities; 13) avoidance of accepting or offering inappropriate gifts and/or benefits; and 14) reporting of employee violations of the Code of Conduct. In this Code of Conduct, the Bank has designated the basic principles concerning the execution of duties and compliance with professional standards by directors and employees. The details of the Code of Conduct can be viewed on the Bank's website.

Moreover, the Bank identifies important rules and practical guidelines that are in accordance with the Code of Conduct, which are detailed and disseminated to employees. The Bank also supports the practical implementation of the Code of Conduct throughout KASIKORNBANKGROUP, and has designated regulations that are consistent with business and compliance responsibilities.

Also, the Bank has established the Compliance Department to monitor and evaluate the effectiveness of employees' actions, as stated in the Code of Conduct and the Corporate Governance Unit, and to launch activities to promote ethical behavior, within a culture of good corporate governance. Best practices and actions in line with the Code of Conduct are regularly and efficiently disseminated to all employees. These activities have also been reported to the Corporate Governance Committee for acknowledgement.

Conflicts of Interest Prevention

To encourage good governance and meet targets related to its implementation, the Bank has initiated guidelines to control, supervise and prevent transactions that may involve conflicts of interest, or Connected or Related Transactions, to be in compliance with standards of good governance. This is one of the key components of corporate governance policy that the Board of Directors and the Bank's employees must strictly comply with to earn the trust of all stakeholders. The following is the essence of these principles:

- The Board of Directors has established a Conflicts of Interest Prevention and Connected Transaction Policy, as well as guidelines to consider appropriateness in the conducting of transactions that must undergo the scrutiny of the Audit Committee, and ensure compliance with the criteria of the Office of the Securities and Exchange Commission, the Capital Market Supervisory Board, the Stock Exchange of Thailand and the Bank of Thailand.
- Directors, executives or employees with related interests in a transaction with the Bank or its subsidiaries must not participate in considering or approving such a transaction. The price of the transaction must be set appropriately, fairly and in accordance with general commercial terms as applied to general customers.
- Connected Transactions must be submitted to the Audit Committee for consideration before further submission to the Board of Directors for approval, according to the Statement of Corporate Governance Principles and the criteria stipulated by the Office of the Securities

and Exchange Commission.

- The Board of Directors approved principles for conducting Connected Transactions between directors, executives or related persons and the Bank or its subsidiaries. Such a transaction can be conducted if the transaction is under terms and conditions similar to those applied to general customers in the normal course of business of the Bank and its subsidiaries.
- In conducting transactions between the Bank and its subsidiaries or transactions between the Bank's subsidiaries, the Bank requires that all transactions must be under terms and conditions similar to those applied to other persons in the normal course of business at a similar level of risk. Otherwise, those transactions must be approved by the Board of Directors of the Bank and its subsidiaries as the case may be.
- The Bank, and its subsidiaries which conduct transactions in granting credit, have no policy to grant credit, conduct transactions similar to credit granting or conduct transactions relating to assets for any of the directors, executives or related persons of the Bank and its subsidiaries which conduct such transactions in granting credit, except for the cases in line with exceptions according to the Bank of Thailand's rules. Moreover, they have no policy to grant credit, invest, create contingent liabilities or conduct transactions similar to credit granting for any of the major shareholders or related persons of the Bank and its subsidiaries which conduct transactions in granting credit, or any of the businesses that have related interests with the Bank and its subsidiaries which conduct such transactions in granting credit, separately or in combination, at the end of each day, in excess of the quantity prescribed by the Bank and the Bank of Thailand.
- Directors, officers in the position of First Senior Vice President and higher, and those in the position of Department Head or equivalent in the Financial Accounting Management Department or Financial Planning Department and related persons are

required to disclose their shareholding information in businesses, their directorship or their authority to manage or control major votes in the shareholders' meeting, including the right to control the election and removal of directors. The disclosure must also include the assignment of any other person to be the nominee of their shareholding or management, or the authority to control businesses in the Bank's database, which is under the responsibility of the Information Management Department that has the responsibility to update the information regularly for use by the Credit Policy Department. The monitoring and control of credit extensions and investment must follow the rules of concerned regulatory agencies. Information on the benefits of directors, officers in the position of Executive Vice President or equivalent and higher, and those in the position of Department Head or equivalent in the Financial Accounting Management Department or Financial Planning Department or related persons must be reported to the Board of Directors when a transaction between the Bank and the person related to the Bank's directors and such persons is brought into consideration, seven days before the Board of Directors Meeting.

- The Bank has disclosed details of every Related or Connected Transaction that may involve conflicts of interest according to the Office of the Securities and Exchange Commission and the Stock Exchange of Thailand's criteria, in the Annual Reporting Form (56-1 Reporting Form), as well as in the Bank's Annual Report and other reports in which it is appropriate to declare such activities. This also includes disclosure of information on Connected Transactions to the Stock Exchange of Thailand according to the Stock Exchange of Thailand's regulations, as well as disclosure of Related Transactions of the Bank according to the recognized accounting standards and the rules of the Bank of Thailand. Disclosures of Related Transactions are shown in the Notes to Financial Statements, under 'Related Party Transactions'. The Bank has used the same criteria as is used with other general

customers to consider Connected Transactions in accordance with defined procedures necessary to support the Bank's business operations, and in a manner consistent with the Bank's strategies in the best interests of shareholders. In 2008, the Bank conducted no Connected Transactions, which were subject to disclosure of transaction details to the Stock Exchange of Thailand.

- Reviews of Connected Transactions were carried out in accordance with the audit plan that is subject to report to the Audit Committee. Should the Bank become involved in any Related Transaction, directors and employees must follow the above policies in accordance with the official regulations.

Internal Control and Auditing Systems

The Board of Directors and the Bank's management have placed particular emphasis on an efficient internal control system and promotion of an appropriate business culture recognizing the importance of risk management and the adequacy of the internal control system in every business undertaking. The Bank requires all units to comply with the best practices for internal control as a guideline for the Bank's business operations and in employees' practices. The Bank also set up a risk management unit and established a clear risk management policy. The Audit Committee has the duty and responsibility to review the effectiveness and adequacy of all risk management processes and internal control systems by discussing and evaluating operational results with the Compliance and Audit Division on a continuing basis. These discussions include consideration of the appropriateness of the scope of work, roles and responsibilities, audit plans, audit conclusions with regard to the adequacy and effectiveness of the risk management, internal control, and governance processes, as well as the monitoring of compliance with the Bank's Articles of Association and the laws and regulations. Major recommendations or material deficiencies must be reported to the Board of Directors in a timely manner for effective action.

To create an appropriate control environment, written policies and operational procedures, training and orientation programs, an operational manual providing information on rules and regulations, a professional Code of Conduct, a regular self-assessment program, and standardized disciplinary actions for serious offenses have been established. These also ensure common understanding as well as capabilities that will lead to efficient, transparent and fair operations for the benefit of all stakeholders.

Control activities are an integral part of day-to-day operations. Appropriate segregation of duties is embedded to create a proper 'check-and-balance' system for operating staff, supervisors and performance assessment. Potential conflicts of interest are identified and subject to careful monitoring, in accordance with regulatory requirements and the Bank's regulations.

IT systems have been continuously upgraded to provide accurate, up-to-date, and complete information for timely decision-making by the management and the Board of Directors. Systems include the financial data system, as well as operational and compliance databases to monitor the effectiveness of the internal control system for prompt corrective action against significant deficiencies. The Bank also provides effective communication channels to ensure that all employees understand and adhere to the policies and procedures affecting their duties and responsibilities.

The Compliance and Audit Division, which is independent in its operation and reports directly to the Audit Committee, carries out the risk-based audit function and monitoring of the operation of the KASIKORNBANK Financial Conglomerate. The risk criteria used are in conformity with the objectives of the Bank and the audited units, and cover compliance with regulatory agencies, the Bank's operational procedures and the Statement of Business Conduct, as well as an assessment of the adequacy and effectiveness of the risk management and internal control system, the efficiency of resource management, and the accuracy and reliability of information. Moreover, the Compliance and Audit Division provides consulting services to the audit clients, according to

the agreed scope, with the objective of increasing the value and improving the operations of the KASIKORNBANK Financial Conglomerate.

The Bank is aware that a system of effective internal controls is a critical component of the Bank's management and a foundation for the 'safe and sound' operations of the Bank. These features help to ensure that the goals and objectives of the Bank will be met, that the Bank will achieve long-term profitability, and will maintain reliable financial and managerial reporting. Such a system can also help to ensure that the Bank will comply with laws and regulations as well as policies, plans, and internal rules and procedures, and prevent the risk of unexpected losses or damage to the Bank's assets and its reputation. The Bank, therefore, monitors the effectiveness of the internal control system, through regular operations and periodic assessment. Any detected irregularities will be immediately reported to responsible managers, and any significant findings will be reported to the Board of Directors and senior management.

During the year, the Board of Directors approved the Compliance Policy, and the Audit Committee approved the Compliance Department Charter, which are stipulated as part of ongoing efforts, aligning with the Bank of Thailand's guidelines, to ensure effectiveness in compliance, risk management and suitability of banking business conducted in compliance with laws, regulations and standards.

Risk Management

The Risk Management Committee is responsible for designating risk management policies that cover the entire organization under the guidelines identified by the Board of Directors, to whom the results must be reported regularly. The Bank has outlined the risk management process, key steps of which include risk identification, assessment, monitoring and control, and reporting. Moreover, the Bank places significance on the early warning of irregular transactions, as well as regularly reviewing the sufficiency of the risk management system and its effectiveness. The details of risk management are disclosed in the section entitled **Risk Management and Risk Factors**.

Appointment of External Auditors and Consideration of Audit Fees

The Audit Committee considers the qualifications and performance of external auditors for recommendation to the Board of Directors for their annual appointment, and the proposed audit fees for further consideration and approval by the General Meeting of Shareholders. The list of external auditors to be proposed as the Bank's auditors must also be endorsed by the Bank of Thailand.

In 2008, the remuneration for external auditors included:

1. Audit Fees:

The Bank and subsidiary companies have paid audit fees to:

- Auditors of the Bank, totaling Baht 14,535,000 in the past accounting year.

5.5 Self-Assessment by the Board of Directors

The Bank has established an annual self-assessment plan for the Bank's Board of Directors. It serves as a tool

for reviewing performance, as well as issues and obstacles facing each director over the past year. It also helps increase the operational effectiveness of the Board. Performance assessment of the Board of Directors is conducted in two ways: the performance assessment of the Board of Directors and the performance assessment of each individual director. To facilitate this, the Bank has developed an assessment form consistent with the Statement of Corporate Governance Principles, as well as the duties and responsibilities stated in the Board of Directors Charter. The Board of Directors conducts self-assessments once a year, and the assessment results are then analyzed and evaluated to indicate the level of achievement of objectives for self-assessment by the Board of Directors, as established by Bank regulations.

The self-assessment process is also applied to four board committees—the Audit, Corporate Governance, Human Resources and Remuneration and Risk Management committees. The assessment results are presented to the Board of Directors.

Both the Chief Executive Officer and the President also have to undergo self-assessments in order to compare their actual performance with the Bank's targets and the annual business plan they jointly created. The Human Resources and Remuneration Committee is responsible for submitting the assessment results to the Board of Directors for consideration. The self-assessments of the Chief Executive Officer and the President are specified as part of their performance assessment in the Board of Directors' Charter. The Chairman of the Human Resources and Remuneration Committee then submits the Board's assessment results, together with their opinion, to the Chief Executive Officer and the President.

5.6 Remuneration to Directors and Executives

The Bank has established a set of well-defined and transparent remuneration policies for directors. The Human Resources and Remuneration Committee is responsible for reviewing these policies by taking into consideration the appropriateness of remuneration with respect to the obligations and responsibilities of each director and

the Bank's financial status, to ensure that the Bank's remuneration is comparable to that of other commercial banks.

The remuneration to the executives is paid according to the policies and criteria set by the Board of Directors. It is tied directly to the performance of the Bank and the performance of each individual. The Human Resources and Remuneration Committee shall propose remuneration to the Board of Directors for consideration.
